SW 2017.01 really starts very slowly.I bought the activation. However, I chose the wrong version "CDP" SN 30250. I have the device SN 100251 "CDP +" and unfortunately it does not work. The Russian does not want to activate for the second time. "EDIT"In the end I got activation for CDP + 100251. I had to change the firmware from 2100 to 1430 WOW because it was impossible to connect to any calculator. SW 2017.01 runs slowly but then works well and quickly. I could not check if it works with cars 2015-2016.
